THE SPACE

The Nature

Designed with our brand pillars in mind, Banyan Tree Escape exudes an unparalleled natural experience through spaces designed to stimulate all five senses.

Bale

Our villas are designed to create an adventurous ambience. With our "no walls, no doors" concept, soak in the ambience of the 180-degree panoramic view right from our private villa.

The Hideaway Spots

Enjoy your privacy in natural surroundings with a dash of adventure. Hidden around our resorts, hideaway spots are a perfect place to share romantic moments, meditate or laze around.

The Open Kitchen

The heart of any Escape, the open kitchen is our exhibition of creating a communal environment. Guests can join cooking classes as an experience or learn how we source of our food, supporting local and regional suppliers.

Toja Spa

Toja Spa is the Spa & Wellness concept of Banyan Tree Escape. Coined as a reference to how they are hidden around the resorts, our Secret Gardens offer the utmost privacy for an "open" Spa experience.

Traditional Spaces

Aspiring to stimulate your senses, Escapes are built around their natural surroundings. Bringing forth the symphonies of nature, our transitional spaces make use of natural landforms that give Escapes their character and bring our little oasis to life.
